

Never say impossible  
The only machine that cleans  
and sanitises itself

Never again will you say: "I spend a lot of time cleaning it every day". Zitrix doesn't need anyone to take it apart and clean it. Something that seemed crazy is now ready for you.

The First Changes It All

# Zitrix

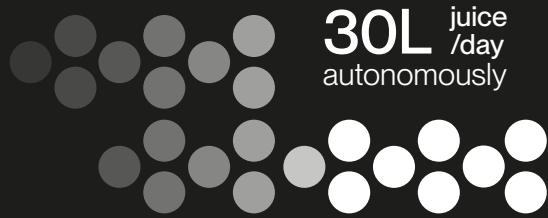

**zumex**<sup>®</sup>

What if the impossible is possible?

What if thinking the unthinkable is the only way to start.  
Achieving the unimaginable, it was only a matter of time.

## Works alone

Thanks to its load capacity of 75 kg for oranges, automatic elevator and the possibility to store 120 L of waste, you will forget it even exists.

## A top performance for the most demanding retailers

Its Top Performance juicer unit achieves the highest performance in its category. The maximum number of litres per kg of fruit. Not to mention its speed, 40 fruits per minute. That's amazing!

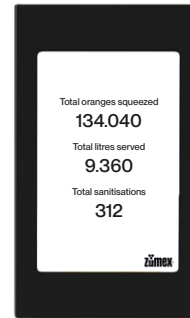

## Every detail matters

- Exact measurement of juice squeezed.
- Merchandise control system.

## Truly on another level

If you want more, we have more. Zitrix features exclusive Smart Juicing technology. You can find out exactly how many litres the Zitrix has juiced or when the last cleaning was performed.

## Always to hand

Thanks to its connectivity, you can always be connected to it, wherever you are.

## Command and control

You can give it cleaning instructions, receive alerts or incorporate videos to guide the user. You are in control of everything.
